

Who We Are

Take the first step right now to control your healthcare costs.

Call for an appointment with one of our helpful providers. Each provider is available to visit your location, assess your current health-cost problems and offer a custom-designed recommendation for you.

We offer practical solutions that can help your business control employee health costs right here, right now.

Thomas Hicks, M.D.

Dr. Hicks, M.D., received his BA degree from Western MI University and his MD degree from Wayne State University. He has had nearly 30 years experience in Occupational Medicine.

Steven R. Eernisse, PA-C

Steven has been a Certified Physician Assistant for 32 years, with 8 years experience in Orthopedics before changing to Occupational Medicine.

Leon Vander Laan, PA-C

Leon has been a certified physician assistant since 1977 with experience in Urgent Care, Family Practice, and Occupational Medicine.

Get a Healthcare Partner on Your Side

Pennock's Occupational Medicine Department works with over 200 area employers, as well as several businesses located out of state with local employees.

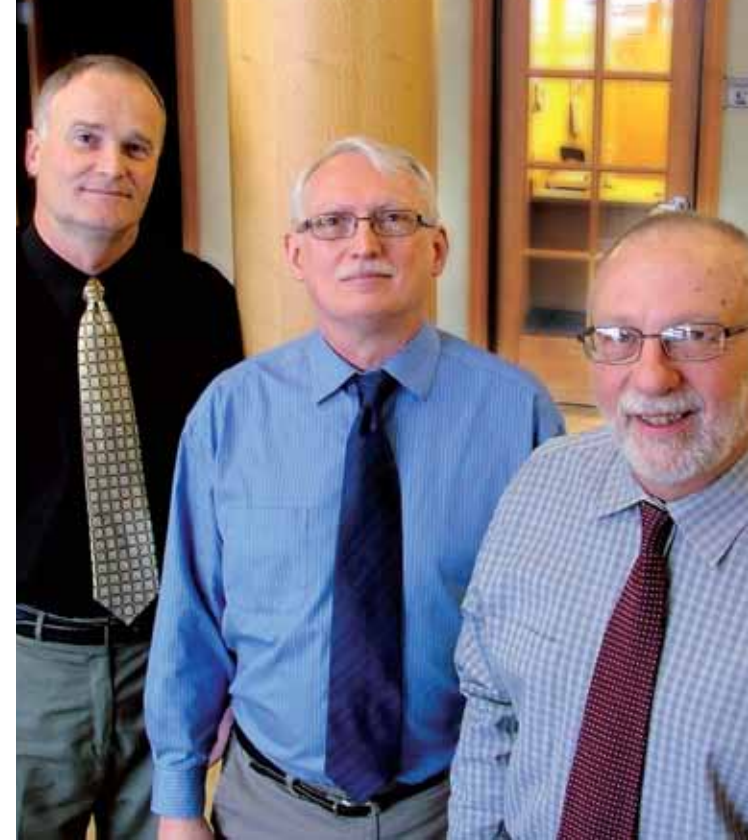

We are your healthcare partner providing physical exams (including Department of Transportation Physicals), management of work site injuries, ergonomic assessments, specialized exams for respiratory and orthopedic considerations, carpal tunnel screening, alcohol breathalyzer testing and drug testing.

What We Offer

Pennock's Occupational Medicine Department works with over 200 area employers, as well as several businesses located out of state with local employees.

We are your healthcare partner providing:

-  Pre-Employment Physicals
-  Immunizations
-  Direct Contracting Services
-  On-Site Health Screenings
-  Latest Technology in Substance Abuse Testing
-  Workers' Compensation Injury Care and Management
-  Rehabilitation Programs and Supervision
-  Occupational Medicine

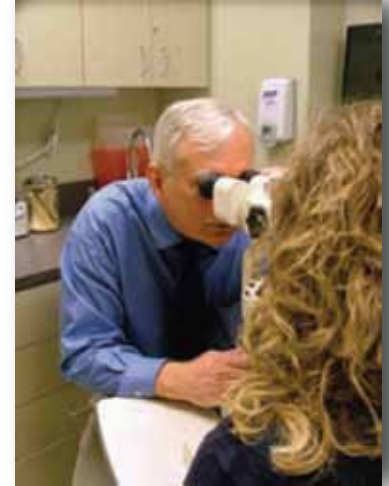

Count on Pennock Occupational Medicine to help control your occupational health costs.

We Provide Customized Programs Adjusted to Fit Your Specific Needs

On-Site Service: We can offer many services at your workplace. This can save you travel time and keep your workers at work while we work for you.

On-Site Clinic: Need some help? If you have the room, we will set up a clinic on your site (at our expense) to see your employees at your workplace. Our providers will work as often as necessary to meet your needs.

Pennock provides the services you are looking for!

Convenience

Pennock Occupational Medicine is part of the area's premier health system, Pennock Health Services. Our goal is to see all patients within 15 minutes. With offices in Hastings, Lake Odessa and Ionia, we're just minutes away. No more driving out of town is necessary for occupational services.

Communication

We act as your representative throughout the Workers' Compensation process, keeping you informed with tests, treatments and explaining your options.

Cost Effective Services

Our low-cost services are so effective, we're proud to serve the leading companies in the area. Best of all, you don't have to be big to save big with Pennock! Join our growing list of clients and receive our exclusive benefits:

-  Comprehensive Physicals
-  Injury Management
-  Health and Wellness
-  Billing-Employer Specific
-  Training and Educational Classes
