

who we are:

Take the first step right now to control your healthcare costs.

Call for an appointment with one of our helpful providers.

We'll visit your location, assess your current health-cost problems and offer a custom-designed recommendation just for you.

We offer practical solutions that can help your business control employee health costs right here, right now.

Thomas Hicks, M.D., received his BA degree from Western Michigan University and his MD degree from Wayne State University. He has had nearly 30 years experience in Occupational Medicine.

Steven R. Eernisse, PA-C, has been a Certified Physician Assistant for 32 years, with 8 years experience in Orthopedics before changing to Occupational Medicine. He has obtained and maintained

training/certifications in Hearing Conservation, Respirator Qualification, Breath Alcohol Technician and Drug Screen Collector Training, as well as Drug and Alcohol Testing Program Management.

He continues to maintain membership in the American Academy of Physician Assistants in Occupational Medicine.
